DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Tanaka (JP 2000-255749). Tanaka discloses a similar device comprising a(n):

- Detection means (SOLUTION/L8)
- Counting means (SOLUTION/L12)
- Ordering means (SOLUTION/L12-14)

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 18 is rejected under 35 U.S.C. 103(a) as being unpatentable over Nobuo et al. (JP 410234553A) in view of Yuichi (JP 06314285A).

Nobuo et al. discloses all of the claim limitations in a similar device comprising a(n):

Art Unit: 3651

- Recorder (abstract/L7-9) for recording a kind of sushi arranged on each plate (kinds and pieces of sushi are counted).

Nobuo does not disclose a changer for changing a time period from preparation to disposal of products according to the kind of said product.

Yuichi teaches the use of a s changer for changing a time period from preparation to disposal of products according to the kind of said product (constitution) for the purpose of rapidly and correctly recognizing the salable and unsaleable aptitude of a commodity that is circularly carried on a belt (abstract), thus preventing the sale of food that has been circulating too long and may have spoiled, and providing for knowledge management of when to discard of potentially spoiled and unsaleable foods.

It would have been obvious to one having ordinary skill in the art at the time of the invention to have provided a storage means for storing a time period elapsed after preparation of a product, as taught by Yuichi, in the device of Nobuo et al. for the purpose of rapidly and correctly recognizing the salable and unsaleable aptitude of a commodity that is circularly carried on a belt, thus preventing the sale of food that has been circulating too long and may have spoiled, and providing for knowledge management of when to discard of potentially spoiled and unsaleable foods.

Allowable Subject Matter

3. Claims 5-16 are allowed over the prior art of record.

Art Unit: 3651

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
